IDEA 3169

Copy 6

27 MAY 1966

MEMORANDUM FOR: Chief, Contracts Division, OSA

SUBJECT : Additional Technical Representative
Assignment

1. The maintenance and operational preparation and post flight recovery of Delta III camera system requires the simultaneous efforts of [redacted] There are presently assigned three, [redacted] teams. One team assigned to Detachment "H" and two teams assigned to Detachment "G".

25X1

2. The possibility always exists wherein all three teams, and particularly the two teams at Detachment "G", could be deployed to various OL's and to carrier operations at one time. This situation would leave Detachment "G" without coverage in the Delta III area. With the requirement for [redacted] per team there is little or no flexibility in programming vacations for these personnel at both Detachments "G" and "H". There is also no means available to replace a team member in the event of an unfortunate occurrence such as sickness, etc.

3. Because of the above requirements and limitations it is necessary at this time to assign an additional Itek technical representative to Detachment "G" on a full time basis.

4. This program will be monitored closely to insure that as the situation permits the number of required, full time, technical representatives is reduced.
